DISTRICT 44 DIRECTORS APPROVE PLANS TO SPONSOR CONSERVATION STUDENTS

The Directors of School Administrative District 44, Monday evening, in a meeting at Andover, approved sponsoring a group of not more than 50 eighth grade pupils to attend the conservation school at Bryant Pond for one week following the close of regular school year.

Further details on applications to attend will be sent to parents from the schools. Tuition of \$17 will be borne by the student. Action on tuition pupils was delayed pending a report of the Finance Committee.

It was disclosed that a federally sponsored cultural program, "Music in Maine," will be brought to the children of grades 4 through 8 next year. The program will be presented at Bingham Auditorium, Bethel, on a regular school day, with pupils being transported by bus from district schools.

The District Directors have been invited to a special showing of school furnishings at the Paris Mfg. Co., South Paris, this Thursday evening.

Curriculum Supervisor Ralph Ryder presented a written report on his activities since assuming his position Feb. 14. Among other new projects, he is studying, with a math committee, selection of math program for the coming school year. He is also preparing a survey on descriptions of present teaching positions as they are carried out by the present staff.

This is expected to be helpful in determining the type and amount of non teaching, as well as teaching, duties performed regularly in the 11 schools.

The hazards reported at various school buildings in the district pertaining to fire are being adjusted, and necessary repairs have been undertaken. Some of the repairs will be done during the summer vacation recess due to extensive time needed for the jobs.

BURGESS NAMED KEEP MAINE GREEN CHAIRMAN

Summer L. Burgess, of Bethel manager, Timberlands and Forestry, Oxford Paper Company, Rumford, has been appointed chairman of the Keep Maine Green Committee. He succeeds the late Ernest A. Rand, Cumberland, chairman until his death last October.

Announcement of the appointment was made by John H. White, Plant Manager of Keyes Fibre Company, Shawmut, and chairman of the Maine Committee of American Forest Products Industries, Inc., sponsors of the Keep Maine Green and Tree Farm programs in Maine.

A graduate forester from the University of Maine, Mr. Burgess brings many years of professional experience to the Keep Maine Green program.

Following graduation he worked as a forester with the former Hollingsworth & Whitney Co., Winslow, now Scott Paper Co. From 1950 to 1958 he was employed by the Maine Forest Service as a service forester working out of Dixfield and since 1958 has been with the Oxford Paper Company, Rumford.

The Keep Maine Green Program is part of a nationwide educational campaign designed to enlist public support for forest protection and improved fire prevention.

Lester Blekford, chairman of the Building Committee, offered a schedule of events concerning the proposed school building, listing the date of the referendum as May 19. The brochure describing the school is being prepared for distribution by mail on or about May 7.

Insurance bids for district property protection will be received Friday.

The next meeting will be held on the Freeman Waterhouse Campus of the Bryant Pond Conservation School, at 7:30 p. m., May 2.

DAYLIGHT SAVING TIME STARTS SUNDAY MORNING

Daylight Saving Time will become effective next Sunday morning, April 24. Setting all timepieces ahead one hour Saturday night will avoid confusion. The return to Standard Time will be on Oct. 30.

COMMENTS FROM THE TOWN MANAGER'S OFFICE

The selectmen have been confronted with a couple of problems at the new fire station. The board has listened to the various sides of the issue and they have formulated policies. I believe it is quite obvious that the policies will not meet with the approval of some people. I would like to stress a point regarding the decisions. The selectmen gathered as much information as was available and they devoted a great deal of time to the problem in the hope that their decision would be the best that they could make. The first item is concerned with the washing of vehicles at the new station. There will be no washing of vehicles except those that belong to the Town of Bethel or the Bethel Fire Department or directly employed by the Town of Bethel or the Bethel Fire Department. The policy regarding the use of the meeting room at the rear of the fire station has not changed. The meeting room will not be available for groups until the room can be segregated from the rest of the station. A platform and stairs will have to be built before the rear door can be used. Whether you agree with the policies or not, I hope you will follow them.

The situation at West Bethel is vastly improved. After the new source was connected to the system, three leaks were found and repaired. There is a certain fitting that has caused the trouble in 95% of the cases. Rather than wait until the weak spots cause trouble, all of the fittings are going to be replaced. I am certain that most of our problems will be solved when the proper materials are used for the fittings.

Twenty selectmen have appointed me the chairman of Bethel Clean-up Week. The week of May 10 will be devoted to the clean-up campaign. The town vehicles will be available but a large amount of help is needed. I will welcome the assistance of any individual group or organization in the project. I will also welcome suggestions or ideas. There will be more details a little later with a complete set of rules.

CURTIS SPEAKS TO COUNTY DEMOCRATS AT BETHEL

Maine's Secretary of State Kenneth M. Curtis said Wednesday night, "Maine's government needs to develop a sense of purpose—a feeling for progress."

The Democratic gubernatorial hopeful said, "the state of Maine will not achieve the results we must by simply going through the motions." Mr. Curtis addressed the Oxford County Democratic Committee at Bethel's Odeon Hall.

He added, "I certainly want to go on record as saying that the State of Maine has on its payroll many highly qualified, industrious employees. However, without effective leadership and direction from the top, without coordination of activities and efficient administration, their efforts are frustrated."

as creates but a smoke screen of activity which gives a false image of progress. The truth is that services are unnecessarily duplicated in some areas and sadly lacking in others."

"The incumbent Governor in seven years of care-taking has simply floated with the current. Good government demands more."

"We can develop a feeling for progress if a good example is set. Strong, courageous, effective leadership at the top will bring forth similar attitudes at lower levels."

CHILD HEALTH CONFERENCE NEXT THURSDAY

The second in a series of Child Health Conferences will be held on Thursday, April 23, at 9 a. m. at the Methodist Church.

MISS CARTER OBSERVES 90th BIRTHDAY

Miss Frances P. Carter of Mayville celebrated her 90th birthday Saturday, April 16th. On Sunday she was honored at a family birthday dinner at her home. Those present were Dr. and Mrs. Richard Bush, Belmont, Mass., Ted Bush, student at Bowdoin College, Mr. and Mrs. Harry K. Carter, and Peter, Mrs. Albert Bean and family of Bethel. She was presented a beautifully decorated cake made by Mrs. Bean, and an ornate corsage from Mrs. Grace Colburn.

The M. Y. P. State Rally is being held in Bangor Friday and Saturday. Those attending from Bethel are Tom Davis, Allan Wolcott and Rev. Donald Hens.

Master Michael Bruce Thorne, 10, of Bethel, and Jean Thorne, 11, of Bethel, attended the Red Sox ball game in Boston, Tuesday.

Deputy Sue Davis, daughter of Mr. and Mrs. Ernest Davis, celebrated her 18th birthday on Thursday. Those present were Mary and Mrs. Cynthia McHoy, Fred and Mrs. and Betty Thorne.

NATIONAL LIBRARY WEEK

The annual observance of National Library Week at our public library has been of interest and importance.

The students of Crescent Park School in the seventh and eighth grades, at the invitation of the Librarian, entered an essay writing contest.

Two dozen essays were received and the group of women Librarians who acted as judges found them all so well and thoughtfully written that a decision was not easy.

Two of the winning essays are printed through the courtesy of editors of this newspaper. New books were given as prizes.

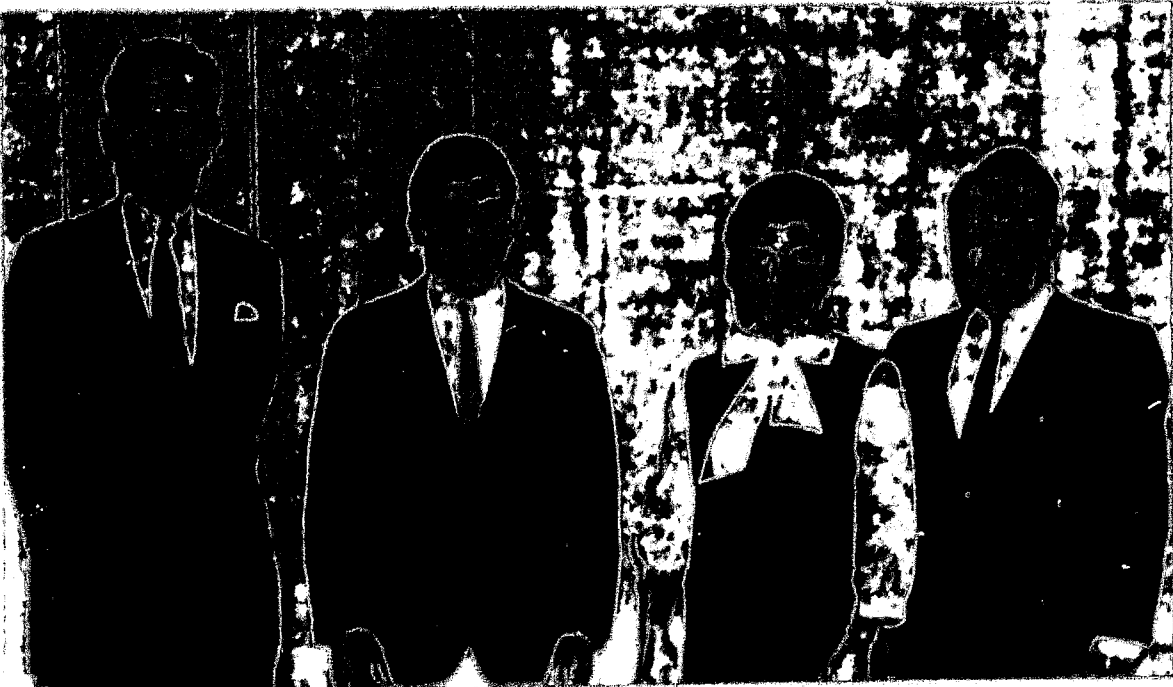

Eighth grade prize winners were Beverly Jackson and Seth Timberlake. Seventh grade prize winners were Sue Hutchins and Terry Wilson. Judy Angeline and Susan Pierce received honorable mention.

The family of the late Carl L. Brown, owner and publisher of The Oxford County Citizen, gave to the Bethel Library on this occasion a collection of books of that periodical since 1923.

To this Brown we are indebted for the library. Trustees and members of the Bethel Library Association appreciate many years of free publicity given by the Oxford County Citizen.

Permits are required for all open fires and incinerator approval certificates must be obtained for incinerator use. Residents of Bethel, Albany, and Macdonald should contact R. S. McMillan, Fire Chief, Bethel.

OXFORD PAPER COMPANY AWARDS SCHOLARSHIPS

Four-year college scholarships worth \$200 each have been awarded by Oxford Paper Company to outstanding seniors at Stephens High School in Rumford, Acad Academy in Bethel, and East Township-East Campus in East Forest, Ill. Three scholarships are awarded each year to sons of Oxford employees, two in Maine and the third at a temporary mill or office location outside the state.

Winners in this 17th year of Oxford Paper Scholarship competition are Brian K. Buck of Bethel, Marshall Todd of Rum-

ford and William Hentz, Jr. of East Forest, Ill.

Buck is the son of Kenneth E. Buck, who is employed in the Rumford Mill Construction Department. The Acad Academy center will enter the University of Maine in the College of Technology next fall. He is 19 years old. His school activities included Student Council for three years, varsity baseball for four years, football for four years, a member of the year book staff and participated in the Senior play.

WHY I LIKE TO VISIT MY LIBRARY

We are lucky to have a free library for pleasure and profit. This is a privilege.

When you make your first visit you will need to find the type of book you are looking for. The librarian is there for this purpose. She will gladly help if you need

I like very much to touch a new book. It is like a new pair of shoes. It needs to be broken in carefully. I think of all the hours the author worked to write this book for others to enjoy.

I can choose a book to read for pleasure. Or, I can borrow one that will help me learn about almost anything in the world. It doesn't matter if I am six or sixty years old, I can always find a book that will be of interest to me.

There are about ten thousand libraries in the United States and Canada. For this reason I know that I am visiting a very special and important place.

I think by visiting the school library I became interested in other libraries. In this way I will be more interested in all books and I will follow the habit all of my life. When I need a few hours of rest and something to enjoy at the same time it would be hard to find anything better than a good book from our town library.

The first public library in the

WHAT THE LIBRARY MEANS TO ME

The library, to me, is a source of research, learning, and enjoyment.

As a source of study and reading, it is an excellent place to get information. When one is doing a research paper or a science project, the library has many very useful books from which one can get all the facts he needs.

As a place of learning, it answers many questions. If one has a problem and is not quite sure of the answer, more than likely he will find his solution at a library.

The thing the library in my opinion is most noted for, is its source of enjoyment. Many, many books are waiting in their special marked places, just waiting to be taken down and read.

There are all types of books: mysteries, comedies, animal stories, science, fiction, non-fiction, action stories and many more. This gives one a wide selection. Seth Timberlake

Christian Science
 The program for continuing spiritual growth to realize eternal life is a central theme of this Sunday's service at all Christian Science churches. Subject of the Bible Lesson is "Revelation After Death." The Golden Text is from James: "Let patience have her perfect work, that ye may be perfect and entire, wanting nothing."

Readings to be presented along with the Bible lesson are from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy. Individuals are encouraged who are watching and praying, can read, and not faint who gain good rapidly and hold their position, or attain slowly and yield and in discouragement and require perfection, but not until the battle between Good and Evil is fought and the victory won.

CONSERVATION DISTRICT SUPERVISORS OFFER SCHOLARSHIPS

The supervisors of the Oxford County Soil and Water Conservation District again offers two scholarships for Oxford County teachers to attend the summer session at Bryant Pond.

The closing date for applications will be May 15, 1966. Any interested teachers may apply by writing a letter to Norman Gray, Chairman Oxford County Soil and Water Conservation District, South Paris. This letter should set forth the reasons why the teacher would like to attend the Conservation Education Workshop. The District Supervisors would also like to know if the applicant plans to live on campus or commute.

The course at Bryant Pond, the Conservation Education Workshop, carries three credit hours. This course provides background information and experience for teachers who wish to plan instructional materials in natural resource conservation.

The resident faculty is composed of Professor Robert Miller, Head of the Science Department at Gorham State College, and Dr. John Mudge, Head of Science Department at Farmington State College.

SUC NIGHT PATROL ASSISTED 1360 MOTORISTS THIS WINTER

According to a tabulation made by the State Highway Commission, the night patrol which recently ended its winter tour of duty along Maine highways, assisted over a thousand motorists which were stranded in rural areas of the state.

The chief cause of trouble with the stalled motorists this winter, as it has been during past seasons, was an empty gas tank. The patrols carry a small amount of gasoline and give the motorist enough to reach the nearest gas station. Next most common cause of trouble was mechanical breakdown, in which case the patrolman radiated for help and stood by until it arrived. Some motorists needed assistance in changing a tire.

Of those aided by the patrols 1,360 of the cars bore Maine license tags, 370 were registered out of state.

This was the 12th season that the night patrol has guarded Maine's main-traveled highways from the onslaught of sudden winter storms. The patrols covered about 2,000 miles of roads including 125 miles of Interstate Highway.

The major purpose of the patrols is to alert the plowing and sanding crews when needed. The men also carry enough sand in their trucks to cover icy patches on the highway in dangerous locations, and are prepared to aid motorists in distress.

20 SECONDS WITH THE NAZARENE STORMS

When storm clouds flash with promised rain,
 The sower thinks of thirsty grain
 Depending on an all-wise God
 To send more moisture for the sod.
 When storm clouds darken o'er my way,
 I would look up, and trusting say,
 "Lord, help me grow and faithful be,
 That I might bear some fruit for Thee."

10 YEARS AGO

County, Massachusetts. Warren Adams of Portland was appointed as the acting director of the University of Maine for a five year term.

The 40th anniversary of the founding of the University of Maine was celebrated in a series of events. A large dinner was held at the University Hotel, and a parade was held in Portland. The University of Maine was founded in 1826 as the first state university in the New England area.

The University of Maine has a long and distinguished history. It was founded by the Maine Legislature in 1826. The first building was a small wooden structure on the site of the present-day campus. Over the years, the university has grown into a major center of higher education in the state.

IT'S THAT TIME AGAIN

Spring is here and with it the annual cleanup of the state. The Maine Department of Conservation and Forestry is urging citizens to clean up their property. This includes removing old stumps, brush, and other debris. The cleanup is important to maintain the state's natural resources and to prevent fires.

The cleanup is a time-consuming task, but it is well worth the effort. It helps to improve the appearance of the state and to protect the environment. Citizens are encouraged to work together to make the cleanup a success. The Department of Conservation and Forestry will provide information and assistance to citizens who need it.

The cleanup is a time to reflect on the state's natural resources and to plan for the future. It is a time to appreciate the beauty of the state and to work to protect it for generations to come. The cleanup is a chance to make a difference in the state and to leave a better world for the future.
